

PWM input constants

```
graph LR; A[Pins used connected the reciever to the arduino] --> B[PWM input constants]
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'PWM input constants'. The box on the right is white with a black border and contains the text 'Pins used connected the reciever to the arduino'. A black arrow points from the right box to the left box, indicating a relationship or flow from the pins to the PWM constants.

Pins used connected  
the reciever to the  
arduino
